Attachments: Blades Groundwater Plume HRS Documentation Record_Draft Final 10_23_19.docx; Ref. 3 PFOS and PFOA Haz. Sub. Memo.pdf; Ref. 21 Project Note-Toxicity for PFOA and PFOS.pdf

Cathy,

Attached is a close to final doc record for Blades Groundwater. We haven't received the final version yet from GDIT. I'm also attaching 2 references that we had to use to document PFAS as a pollutant or contaminant, and how we derived the toxicity values that we used. Please let me know if you need any additional information.

Lorie

Coping Lorie for the latest. Lorie, could you also send the latest copy of the reference to the record that discusses PFAS as pollutants or contaminant. Thanks!

Hi Jen,

Can you share the HRS doc record for Blades Groundwater in R3? I want to see how PFAS was handled as we may be headed for an HRS doc record for a PFAS site.

Thank you!
Cathy

Subject: Follow up to monthly call discussion

Hi all. As discussed on today's call, could you please check with your START PO to see if there is anything in the contract requiring EPA to redact the names of contractors, please reply all if/when your find out.

Also, I wanted to send you the new Fall 2019 NPL briefing paper for the Administrator along wit the one-page summary. I didn't want to distribute these to the wider call group.

Thanks!
